Subject: Notification of release liner change for 3M™ Thermally Conductive Adhesive Transfer Tapes 8805, 8810, 8815, 8820

To Our Valued Customers:

This notice is to inform you of release liner change for the 3M™ Thermally Conductive Adhesive Transfer Tapes 8805, 8810, 8815, 8820 (“88xx series”).

This release liner change of 3M tape 88xx series includes both inner polyester liner (clear color) and outer polyester liner (blue color).

This release liner change affects the following products:

Material Number	Material Description
7000008484	3M™ Thermally Conductive Adhesive Transfer Tape 8805, 550 mm x 33m
7000021526	3M™ Thermally Conductive Adhesive Transfer Tape 8810, 550 mm x 33m
7000100753	3M™ Thermally Conductive Adhesive Transfer Tape 8815, 550 mm x 33m
7000100754	3M™ Thermally Conductive Adhesive Transfer Tape 8820, 550 mm x 33m

Clear polyester film liner

Clear polyester film liner

These clear liner photos are taken with laminated 3M™ Thermally Conductive Adhesive Transfer Tape 8815 due to liner's clear color.

Change of the release liners of 3M tape 88xx series will not affect the fit, form, or function of the product, and will still meet the specification. Manufacturing lead time will remain the same.

Customers will need to determine whether the tape products, with the new release liners, are suitable for their intended applications.

This change will be fully implemented beginning with products manufactured from Q2, 2026. More specific transition information will be provided when it becomes available.

Unfortunately, we cannot offer a last time buy option for 3M tape 88xx series, as existing liners will not be procured any longer.

Supply of the current 3M tape 88xx series against already accepted orders will continue until approximately Q2, 2026, on a first come, first served basis, until inventory is depleted. Availability of current 3M tape 88xx series with existing liners may be limited. Therefore, acceptance and fulfillment of any open order is up to 3M discretion and is not guaranteed.

Orders receiving a 3M order confirmation ("Order Confirmation") with an estimated delivery date will be considered as accepted by 3M. Delivery dates are estimated only and may be subject to change.

No returns will be accepted for the 3M™ Thermally Conductive Adhesive Transfer Tapes 8805, 8810, 8815, 8820 with existing liners unless the return is based on a valid warranty claim or due to a 3M error.

If there are any questions concerning this release liner change of 3M tape 88xx series, please contact your local 3M representative for further assistance.

Sincerely,

Helene Rocheteau
